	Spain	237,600 €	100	5	Seville City Council Municipal Urban Planning Office	Seville City Council	2002-2006	
Details of the project						Types of services rendered		
<p>Technical assistance for Sustainability Checking was provided by means of support for the Office responsible for Seville City Council's new General Urban Development Plan and in the Environmental Impact Study. The importance of the municipal district of Seville lies in the fact that the city is the seat of the Andalusian Regional Government. The municipal area is large, with a population of 750,000 in the city itself and 1.5 million in the surrounding metropolitan area.</p> <p>The aim of the assistance was to ensure the execution of the city's new General Land Development Plan, within the framework of the initiatives being implemented to facilitate sustainable development in large cities. The idea was to bring about a gradual improvement in the environmental quality in the district through achieving positive changes in pre-established environmental indicators, and as part of a series of actions designed to conserve natural resources in the most appropriate manner. Further to this proactive background work, a specific chapter of the Plan – the Environmental Impact Study – was drafted in line with the legislation currently in force.</p> <p>The technical assistance provided included the following:</p> <ul style="list-style-type: none"> – Institutional support for sustainability. – Land data generation. Field studies and diagnoses – Study into the environmental feasibility of the proposals. – Drafting of municipal regulations pertaining to environment and the development of non-buildable land. 						<p>Institutional reinforcement</p> <p>Municipal land planning</p> <p>Data generation</p> <p>Drafting of regulations</p> <p>Citizen participation</p>
